Voted 5-0 to approve a **Public Sector Linear Variance for the Northeast Drainage Ditch Improvements Project**, as follows, for a fiscal impact of \$980,000 funded from the Northeast Drainage Ditch Project #96388 (1989 Sales Tax) (*Option 1 recommended by Public Works/Engineering*):

Option 1. Provide a finding of fact that reductions in flood elevations and acquisition of floodplain properties fulfill the intent required within the Public Sector Linear Infrastructure Variance process of providing a net environmental benefit, and

Approve a Public Sector Linear Infrastructure Variance, in accordance with Section 7.2(2) of Chapter 28 (Environmental Management Ordinance) of the City Code, for improvements to the Northeast Drainage Ditch, between Capital Circle and Mahan Drive, based on the mitigating flood level reduction benefits provided by the improvements, the acquisition of floodplain properties, and the economics of available alternatives.

Item 39 – Voted 4-0 (Commissioner Bailey absent) to approve a **JPA with the Florida Department of Transportation (FDOT) for the City to provide \$9 million (without reimbursement) to fund the construction of Capital Circle from Apalachee Parkway to Park Avenue**, and authorize the Mayor to execute the JPA, funded from the Capital Circle Improvements Project #97005 (1989 Sales Tax) (*recommended by Public Works*)

The Commission determined that the current cost estimate for the cost of this project was below \$9 million

The Commission discussed taking a **serious position with FDOT that the City should have some oversight on the selection of contractor and final approval of the job based on the City funding this project without anticipation of reimbursement; and further, on those segments of Capital Circle needing resurfacing where there had been no oversight by the City, the cost of such resurfacing due to shoddy work ought not to be taken out of any funds that might otherwise go towards other needed resurfacing projects in the City**

Additionally, Commissioner Lightsey **requested that the FDOT be asked to send a representative to the MPO meetings who would be able to answer questions on State road projects in the Tallahassee-Leon County area.**

Item 40 – Voted 4-0 (Commissioner Bailey absent) to approve **advance funding to Blueprint 2000 for the construction of Capital Circle (Monday Road to Centerview Drive)** as follows (*Option 1 recommended by Public Works/Engineering*):

Option 1. Approved \$1,800,000 of advance funding (with reimbursement) of a 0.33 mile segment of the Blueprint 2000 Capital Circle Improvements (from Monday Road to Centerview Drive), subject to approval of the reimbursement of the principal and lost interest by the Blueprint 2000 Intergovernmental Agency, and authorized the City Manager to negotiate and execute an **agreement with the Capital Region Community Development District (Southwood) to incorporate its Esplanade Way improvements project into the City's project.**

Mayor Maddox **asked that the staff quantify the amount of savings attributed to incorporating the Southwood project.**

Item 41 – Voted 4-0 (Commissioner Bailey absent) to **adopt Resolution No. 02-R-08, setting forth the City's concurrence with Leon County's action to establish an Enterprise Zone (EZ)**, as the designated area(s) were likely to be wholly or partly within the corporate limits of the City (*Option 1 recommended by Economic Development*):

Commissioner Lightsey ascertained that there was no conflict or confusion caused by the County's EZ and City's Community Redevelopment Area (CRA) boundaries, and that this was a positive endeavor for both the City and the County.

Commissioner Meisburg **requested that the staff provide him with more information on this County initiative.**

Item 42 – Received an update on the City's Productivity Awards Program; voted 5-0 to authorize an expenditure of up to \$62,500 (inclusive of \$12,500 previously paid) from the Rewards & Recognition Budget to **fund the City's contribution for the first year program costs, and execute the reduced service agreement with Florida TaxWatch (FTW) to administer the Productivity Awards Program** as presented (*recommended by Human Resources*)

Discussed the costs for the administration of this program and Commissioner Lightsey stated that she would not support a subsequent year with a similar percentage of cost.

Ms. Debra Hunt, representing FTW, appeared before the Commission and explained that she had taken on the role of fundraiser. She stated that she was working to raise the balance of the funds for administering this program and if the funds were not raised, FTW would administer the program anyway.

Item 43 – Heard from Mr. Matthew Vaughn, Lively Technical Center, 500 N. Appleyard Drive, who discussed **the City's refusal to accept his application for HVAC Contractor's licensing based on interpretation of terminology in the City ordinance** while he had been able to apply through adjacent Gadsden County and had successfully taken the same certification exam in Jacksonville. Mr. Vaughn recommended that the City modify its ordinance so that the staff could use some common sense judgment in this regard.

Mayor Maddox **asked City Attorney English to investigate this matter and determine if the City's ordinance was keeping qualified people from being certified.**

Item 44 – Heard from Mr. Kevin Koelemij, 2225 Amelia Circle, on behalf of the Tallahassee Community College (TCC) Foundation and the TCC Forensics Team, **requesting some funding assistance to help the TCC Forensics Team participate in competitive events**

Mr. John Schultz, Director of the TCC Forensics Program, discussed the benefits of such academic competitive excellence and introduced three of the students who gave brief demonstrations of their expertise.

The Commission applauded the accomplishments of this team and **requested that the staff determine how this funding request could fit into the City's donations program.**

Unagendaed:

Ms. Leisha McKinly, P. O. Box 12402, Pensacola FL 32582, representing United Counties Minority AIDS Care & Education, appeared before the Commission and requested assistance in having a roadblock for a walk-a-thon in March 2002. She distributed a handout of facts on HIV/AIDS in Florida and the United States.

He invited the Commission and Management to attend.

Mayor Maddox recognized Mr. John Davis, Assistant Public Works Director, who was retiring after 29 years of outstanding service to the City, and noted that Mr. Davis had also served as Full Colonel in the National Guard.

Mayor Maddox recognized the attendance of Boy Scouts Troop 44.

Mayor Maddox also recognized State Representative Loranne Ausley and expressed appreciation for what she was doing for the City of Tallahassee.

Item 1 – Deferred to a future meeting a presentation of Proposed Energy Risk Management Policy and Procedures (*brought forward by Energy Services*)

Item 2 – Discussed recommendations of the Financial Advisory Committee (FAC) concerning the **Five Year Financial Plan** and the staff's recommended **budget balancing strategy**, with some long-term strategies to be brought to the Commission at subsequent Commission meetings, including the potential establishment of a transportation authority for TalTran with supplemental funding from gas taxes, a reduction in the City's fleet, reinstating a loan program in lieu of a grants program in the Historical Preservation Program, and

reviewing the Finance Policy and reserve levels (*presented by the Department of Management & Administration [DMA]*)

Concurred to maintain the Commission practice of considering an ad valorem tax increase only as a last resort and for an easily defined public purpose

Item 3 – Received a staff briefing and discussed flooding and floodplain management issues (*presented by Public Works/Stormwater Management*)

Voted 4-0 (Mayor Maddox absent) to approve the following two options recommended by staff, which would require approximately three months to draft ordinance changes required for implementation of the options:

- **Require that all preliminary plats be accompanied by the establishment of floor elevations and denote the requirement for positive drainage plans to be submitted at the time of site plan, or building permit, whichever occurs first.**

Voted 1-3 (Commissioner Lightsey, Commissioner Billings and Commissioner Meisburg opposed) (Mayor Maddox absent) denying a motion to develop and set criteria for acquiring single family houses or other properties after looking at all other ways of mitigating flooding, i.e., the structure itself has to be flooded, not a carport, and bring back a formula that could be used to bond the money needed for such acquisitions

Commissioner Lightsey **requested that staff bring back information on the 64 homes with repeat flooding in the past three storms in terms of how many of them were going to benefit from some flood relief project in the current Five Year CIP.**

City Manager Favors **confirmed the Commission's direction that it would prefer staff spending time looking at a system wide strategy of mitigation as opposed to individual property acquisitions at this point, however, the Commission wanted the staff to have a list of priorities ready for review in the event federal or other funding became available.**

Item 4 – Deferred to a future meeting an update on the Airport Security Plan (*brought forward by Aviation*)

Unagendaed – Received a staff update from the Director of Growth Management, and discussed the City and County positions on a proposed **Lake Lafayette Special Development Zone (SDZ)**, providing directions as follows:

Concurred to direct that the staff continue monitoring the County's discussions on the Lake Lafayette SDZ issue and bring it back for Commission consideration at the first regular meeting in March, with a review by the City Attorney

The City Attorney commented that he had reviewed the written report from Mr. Herman just before the meeting, and he concurred that the approach contained within the report was a sound one and he believed it was legally defensible under the Comprehensive Plan language.

Mayor Pro Tem Lightsey **requested that the staff investigate and bring back information on the County's variance procedure from the 25% allowed disturbance or development in Zone B, which set no maximum, as opposed to the County's original proposal, which had included a maximum development of 50% in Zone B.**

Commissioner Billings **requested that the staff bring back some information on what would happen with the problem of nonconforming uses.**

Item 27 – Heard from **Mr. Walter Ericks**, 1733 Capital Circle N.E., in Briarchase Subdivision, relative to his request for a waiver to allow the development on adjacent property to construct its stormwater management facility where it would face his back yard rather than the current permit to face his front yard, which was at a lower elevation, and his distress at getting no assistance from the City in this regard (submitted a map and photos)

Item 32 – Voted 4-0 (Mayor Maddox absent) to provide the recommended finding of facts and stipulate Alternative 1, summarized below, as the City's current proposal to achieve compliance with the Conservation Element of the Comprehensive Plan, Policy 2.2.10(c), which required that a **Lake Lafayette Special Development Zone (LLSDZ)** be adopted to minimize further degradation of Lake Lafayette (A Comp Plan Amendment was already being processed to extend the 2001 deadline to 2004.) (*Option 1 recommended by Growth Management*):

Alternative 1

Provides for increased stormwater treatment standards by expanding the existing Watershed Conservation Measures Citywide and extending the Comprehensive Plan Lake Lafayette Special Development Zone (LLSDZ) deadline until 2004, matching those currently required in watershed conservation areas. This generally results in adopting a

Citywide treatment requirement of 1-1/8 inch, consistent with the requirements for all other SDZ's within the City and County.

Additionally, amend Section 3.4 to provide for a LLSZ adjacent to Lake Lafayette Zone, including the 100-year floodplain or a 50-foot buffer from the normal high water line landward, whichever is greater. Exceptions would be provided for previously platted residential lots, but in general there would be no disturbance within Zone A. Zone B, extending from the upland boundary of Zone A for a distance of 200 feet, would keep unaltered a minimum of 75% of the area. If additional lands were to be required for development, then a variance (free to single-family units only) might be applied for and secured on a case-by-case basis. The amendment of Section 3.4 would also outline prohibited land uses. (This intent of this paragraph was the creation of a regulation to mirror Leon County's proposed LLSZ regulations around the water body only.)

The Commission also received a staff report on the County Commission's action on this issue, which was to reduce the buffer to 200 feet around Lake Lafayette and its tributaries, to allow a variance if the buffer was onerous to a development, and waive the variance fee for single family residences.

The Commission requested that the staff bring back some analysis on the issue of waiving the variance fee for single-family residences.

Item 32.1 –Voted 4-0 (Commissioner Bailey absent) to **adjust the compensation packages of both the City Manager and the City Attorney** as of January 1, 2002, to provide an annual deferred compensation payment at the maximum amount currently allowed under the Internal Revenue Code, and thereafter adjusted as indexed in the Code (*recommended by Human Resources*)

The Commission also briefly discussed the plans for development of a **model learning center in the All Saints community**, which would serve the needs of that community and both universities, and could be replicated around the world, with some potential opportunity for some revenue.

Item 33 – Heard from **Mr. Kevin Condatore**, 740 Gwen Street, as scheduled, who asked the Commission for some help with the **flooding** of his home

Item 34 – Heard from **Mr. Carlos J. Torregrosa**, as scheduled, who discussed his concern with **plans to locate the new homeless shelter (the new Comprehensive Human Services Center) in the West Pensacola Street area**, indicating it would force his business in that area to bear the cost of added security, and that the proposed location for this facility was incompatible with the pre-school and elementary school that were located in that area

Mr. Torregrosa also presented a petition signed by residents and business owners in the area who shared his concern.

Item 35 – Held the a public hearing and voted 5-0 to **adopt Ordinance No. 02-Z-20AA**, introduced on February 13, 2002, rezoning the back 4.87 acres located at the intersection of **Tram Road and South Monroe Street** from C-2 General Commercial District to MR-1 Medium Density Residential (RZ-309) leaving 0.92 acres fronting on South Monroe Street zoned C-2, as agreed to by the applicant at the request of other South Monroe Street commercial property/business owners (applicant: C. Fred Pierson) (*Option 1 as amended recommended by Planning*)

Ms. Edwina Stephens, 608 FAMCEE Avenue, representing her Southside Neighborhoods, appeared before the Commission and discussed their desire to have the South Monroe Street frontage kept open for commercial development along that corridor (proponent).

Mr. Barry Poole, 2145 Delta Boulevard, representing the applicant, and Mr. Ralph Stoetzel, 1447 Stone Road, indicated their availability to answer questions (proponents).

City Commission Sharing of Information & Ideas:

Commissioner Bailey requested that staff **investigate whether Police and Fire Employees could be allowed to buy back time**, as had been allowed for the General Employees, or if that was necessarily a collective bargaining issue for them.

Homeless Shelter West Pensacola Street Location

Mr. Dan McDaniel, 1907 Ivan Drive, appeared before the Commission and discussed concerns he had heard from numerous citizens relating to the proposed location of the new homeless shelter in the West Pensacola Street area.

The Commission clarified that the Homeless Coalition's selection of a site was not a City Commission issue. Commissioner Lightsey requested that the City Attorney provide a statement about why a Comp Plan policy was not applicable in this situation relating to the proposed site of the new Comprehensive Human Services Center in the West Pensacola Street area, as questioned by Mr. McDaniel.

Boom Box Noise

Mr. George P. Kassees, 1650 S. Meridian Street, appeared before the Commission and discussed his family's problem with the boom box noise in his neighborhood.

Ms. Gerie Kassees, 1650 S. Meridian Street presented a petition for Commission review with 61 signatures supporting her position that the boom box noise was a serious problem for them. (Ms. Kassees did not leave the petition for the record.) She also submitted a flyer that had been distributed to the residents of the neighborhood (placed on file in the Office of the City Treasurer-Clerk).

Mr. Rashard Thurston, 2750 Old St. Augustine Road #F-51, appeared before the Commission and discussed his belief that what may be considered a volume of boom box noise differed from person to person. He also suggested that Tragic Engineering could help solve the problem because during peak hours he drove through Myers Park because of the traffic being held up on Apalachee Parkway by the traffic lights.

The Commission discussed the measures that had been taken and the intent to continue attempting to find a solution to the problem of boom box and other urban noises being neighborhood nuisances.

Commissioner Lightsey discussed her perception that the policy the Commission had put in place to address the issue of neighborhood nuisance and noise was not working, noting that she had received conflicting reports.

Buckwood Annexation

Ms. Shann Lawson, 4105 Bothwell Terrace, representing the Buckwood Homes Association, Inc., appeared before the Commission in support of Ordinance No. 02-O-39, indicating they consisted of 167 housing units and 80% of the residents favored annexation, and they had City water, sewer and electric, and would want the City to maintain their roads.

The Commission also confirmed with staff that the City would certify the contractors working in this program as part of the City's Affordable Housing Program

Item 12 – By consensus, **introduced Ordinance No. 02-O-29, which would empower the City Manager to modify the effective date of certain sections of the utility rate ordinances** for implementation of changes related to the PeopleSoft Customer Information System (CIS), and set public hearing on the ordinance for April 24, 2002 (*Option 1 recommended by Utility Business & Customer Services/Utility Accounting*)

Item 13 – Voted 5-0 to approve an amendment to the Capital Budget to establish a recurring project, in the amount of \$300,000, using the RR&I fund balance to **establish a revised airline assistance package for the Tallahassee Regional Airport** – designed to help maintain growth, improvement in airline service and placement of TLH in a strategic position to offer packages that are industry competitive (*Option 1 recommended by Aviation/Business Services*)

Item 14 – Voted 4-0 (Commissioner Meisburg absent) to approve **increasing the Aviation Department's Operating Budget by six (6) FTE (full-time equivalent) positions (one (1) Supervisor and five (5) Operations Agents)**, at an estimated cost of \$144,875 (covering the period June 2002 through September 2002) -- to provide lowest cost airport curbside parking enforcement without exacerbating the current shortage of Police Officers, reducing stress associated with constant passenger contact, and providing more comprehensive Ground Transportation Operations oversight (*Option 1 recommended by Aviation/Airport Finance Administration*)

The Commission expressed a preference for these Airport parking enforcement personnel to wear official uniforms and have good customer relation skills.

The Commission requested that staff monitor the status of obtaining reimbursement for these **post September 11th security expenses** and advise the Commission if staff received any indication that the reimbursement funds were being reduced or halted.

The Commission also determined that the issue of **City expenses resulting from the September 11th acts of terrorism against America** would be included in the FY '03 budget discussions.

Item 15 – Voted 4-0 (Commissioner Meisburg absent) to approve the **reconveyance of a 1.21-acre parcel no longer needed for the Bair Stone Road Northern Extension Project back to the adjoining property owners, the heirs of Mr. Henry Hill** (*Option 1 recommended by the City Attorney*)

The Commission briefly discussed the issue of moving people through the **Airport security checkpoints** without causing long delays, and moving forward with a second security checkpoint.

Item 15.2 – Voted 4-0 (Commissioner Meisburg absent) to approve supplemental funding and task order authority for the **Purdum Electric Generating Station site legal investigation of soil contamination**

coming from the St. Marks Refinery, authorizing: 1) supplemental funding in the amount of \$150,000 from the Electric Utility Undesignated RR&I Fund; 2) the establishment of a work order with those funds, and 3) the City Attorney to approve a **task order with Hopping Green & Sams** in excess of \$50,000 for the legal support for this issue (*Option 1 recommended by the City Attorney*)

The Commission brought up the question of how state and federal regulatory agencies had not been cognizant of this soil contamination, and how it had been left to the City of Tallahassee to push this issue along in order to protect the City's interests. The City Attorney indicated his office had requested a copy of related files and that he would provide the Commission with a report in this regard.

City Commission Information and Sharing of Ideas:

Mayor Maddox announced that **Representative Lorraine Ausley had offered a resolution on the House floor thanking local government and local community leaders for hosting the Legislature**, and for being such good hosts for the Florida Legislators while they were in Tallahassee and in session. The Mayor, Commissioners and City Manager thanked her for thinking of the City and doing this.

The Commission **discussed its prior action on the issue of community branding and the City logo** at the Commission's earlier Target Issues Workshop, and indicated that there may have been some miscommunication on the issue. The Commission requested that the staff evaluate the issue and bring back a recommendation on the proper course of action to take. City Manager Favours indicated staff would bring the recommendation back on April 10, 2002.

Item 16 – Held a public hearing and voted 4-0 (Commissioner Meisburg absent) to **adopt Ordinance No. 02-O-27**, introduced on March 13, 2002, amending the Zoning, Site Plan and Subdivision Regulations to **permit placement of a Historic Preservation Overlay on properties within the Capitol Center Planning District** (*Option 1 recommended by Planning*)

Unagendaed – Proposed site for the Center for Comprehensive Human Services in the West Pensacola Street Area:

Mr. Allen R. Moayad, 2401 W. Pensacola Street, owner of property in the West Pensacola Street area, appeared before the Commission and discussed objections to locating the new homeless shelter in the West Pensacola Street area. He urged the Commission not to contribute the \$800,000 set aside to the Homeless Coalition until a public hearing was held on the issue and not make the contribution if the site conflicted with the citizens of Tallahassee.

The Mayor briefly discussed his intent to make sure there was public input on the location of the homeless facility before he voted on making the allocation to the Homeless Coalition for the construction of a facility for the new Center for Comprehensive Human Services, and he stressed that this would not be a replication of the current homeless shelter.

Commissioner Lightsey announced her prior request to staff to provide information from other cities with similar programs and facilities, and their crime statistics in the vicinity of such facilities, prior to bringing the issue to the Commission for a funding decision, and she briefly discussed her perception that the proposed new Center for Comprehensive Human Services would help people stay out of the criminal justice system.
