Mr. Baynes also stated that he had attended the Leon County Commission meeting and had recommended to the County Commission that the County terminate its recreation agreement with the City because of surcharges that appear on the utility bills. Mr. Baynes noted that the City's budget had about \$24 million in surcharges, which amounts to about \$5 million per year.

Item 18 – (Taken out of order) Held the first and only public hearing on Ordinance No. 10-O-53, which provides for the establishment of new time-limited electric rate pilot programs by Resolution, and voted 5-0 to adopt the ordinance. Received a power point presentation by Mr. Reese Goad, Director of Utility Business & Customer Services. (Recommended by Utility Business & Customer Services)

The following persons appeared before the Commission relative to this item:

Mr. Bob Elias, 1806 Wagon Wheel Circle E., appeared before the Commission to express support of the Time-Limited Electric Rate Pilot Programs and requested that the Commission direct staff to explore the option of extending the program to non-residential customers.

Mr. Michael Rosenthal, 4045 Kilmartin Drive, appeared before the Commission to express concern with the implementation of the smart meter program and stated that he felt that the program was poorly thought out. Mr. Rosenthal stated that he felt that the smart meter program should have been implemented as a pilot program on a small number of homes first. Mr. Rosenthal posed the following questions and requested that they be answered:

1. Will the time of use rates eventually become mandatory?
2. Why are more power plants not built?
3. Will the time of use rates be revenue neutral as recommended by the R. W. Beck study?

Mr. Rosenthal indicated that the operating fund shows \$19 million of new revenue in 2012 under the rate study, which goes up to \$36 million in 2013. Mr. Rosenthal inquired about where the extra funds came from. Mr. Rosenthal requested that the Commission authorize a study to explore the idea of selling the City of Tallahassee electric utility to the Florida Power and Light Company, he stated that the citizens of Tallahassee would benefit from dramatically lower electric rates and it would free up the city with having manage a utility.

Mr. Erwin Jackson, 1341 Jackson Bluff, appeared before the Commission and stated that he was a small business owner who pays \$12,000-\$15,000 per month to the City of Tallahassee for utilities. Mr. Jackson stated that the Commission approved spending approximately \$50 million on the smart meter program, which does not generate any electricity and does not reduce utility rates. Mr. Jackson stated that he believes that this collective decision of the Commission will be the largest financial disaster in the history of Tallahassee. Mr. Jackson stated that the \$50 million expenditure resulted into the proposed Nights and Weekend plan that even Mayor Marks said that he would not follow as printed in the newspaper. Mr. Jackson stated that the plan proposes to increase utility rates from twelve cents to twenty-two cents per kwh, an 84% utility rate increase if used between the hours of 7 a.m. and 7 p.m. Mr. Jackson indicated that he understands that the program is voluntary, however, \$50 million was spent on a voluntary program that not even the Mayor wants to follow. Mr. Jackson indicated that it was time for a formal investigation as to why the City approved the program and the \$5 million nonbinding contract with Honeywell. Mr. Jackson inquired about how much of the funding was given to their attorneys, specifically Adorno & Yoss Law Firm, and its most favorite member of

the firm, Mayor John Marks. Mr. Jackson also inquired about the legal involvement of Adorno & Yoss Law Firm has had with the City of Tallahassee while John Marks has been Mayor. Mr. Jackson indicated that a recent ruling by the Broward Judge Tutor against Adorno & Yoss founding partner Mr. Henry Adorno was concerning. Mr. Jackson stated that the Florida Bar took disciplinary action against Mr. Adorno, ruling that he breached his duty by accepting excessive attorney fees of \$2 million. Mr. Jackson also stated that the Third District Court of Appeals concluded, "A more unethical and reprehensible behavior by attorneys against their own clients is difficult to imagine - Judge Angel Cortinas." Mr. Jackson stated that the integrity of specific elected officials is being questioned and stated a full investigation must be conducted and the money trail must be followed. Mr. Jackson stated that assurance from the City Attorney, the silence by the Tallahassee Democrat, and other media outlets is unacceptable and at this point the only thing that is known for sure is that Honeywell, Adorno & Yoss, and Mayor Marks got the gold and the citizens of Tallahassee got the shaft.

Commissioner Mustian left the meeting at 6:35 p.m. and did not return.
