

## 3.2 County to County Worker Flows

According to the 2000 Census, Leon County continues to be the employment center for the region. Ninety-five percent of employed Leon County residents work in Leon County. A different situation is evident in the neighboring counties of Gadsden, Wakulla and Jefferson (which along with Leon County comprise the Tallahassee MSA) wherein almost fifty percent of employed residents travel to Leon County for work. In both Wakulla and Jefferson counties, more residents commute to Leon County for work than work in their county of residence. This contrasts to the statewide average of 82.7% of residents who work in their county of residence.
