This agreement is made between the City of Tallahassee and the named builder pertaining to construction at above addresses for the purposes stated herein and agreed to as follows:

1. The Builder agrees:
 - a. To install the appliances checked above and obtain required City inspections of installed appliances.
 - b. To have separate gas metering for each residential unit in the project.
 - c. To conform to all City, County and State Building and/or Energy Codes applicable to above named construction project.
 - d. To insert the City of Tallahassee Natural Gas Utility's logo (example of logo is on the form) in all advertising, and allow Natural gas utility yard signs on the property during construction or prior to sale.
2. The City agrees:
 - a. To pay above rebates **to the Builder signing this agreement** for installed natural gas appliances (not stubouts) indicated on the City's Final Gas Inspection Report.
 - b. To provide a free gas service tap to meter location if gas appliance installations include a gas water heater.
3. The City may, at its option, terminate this agreement if the Builder fails to begin construction within 60 days following the date of this agreement, or fails to carry out any obligations set forth in section 1 above.
4. The Builder understands that he is solely responsible for payment of any sums due any contractor and/or subcontractors, who provide labor and/or materials for the above-named construction project.
5. The parties hereby represent that the individuals signing have full right and authority to bind those parties as set forth herein.
